Award

Overall best paper in computer science in Greek

Anatolia College ACSTAC Conference

Created a robot Vehicle with sensors to calculate distances from objects. Could navigate in a simple maze. Built out of re-used materials. Its battery can be charged by solar energy. Demonstrated the robot in a presentation, providing the proof of concept.

BACHELOR'S DEGREE

Applied Informatics at University of Macedonia

(Thessaloniki Sep 2018 - Feb 2025)

I got "hands-on" experience on these fields:

Object Oriented Programming, Procedural programming, web development, Algorithms & data Structures, databases, Data Science, Machine learning, Maths, GDPR.

My studies also taught me patience, consistency, discipline and teamwork.

Erasmus at University of Primorska

(Koper Feb 2022 - Jul 2022)

Learned how to adapt in new environments and conditions. Also became capable of working and communicating in English fluently.

WEB DEVELOPER AT

"EUROPEAN DYNAMICS"

Remote (Oct 2023 - Apr 2025)

Our project was the development and maintenance of the system used by the European Maritime Safety Agency. My main responsibilities were the development of tools for documentation and testing. Technologies I got experience on: Java, Vue JS, Git, python pandas, Soap UI and Weblogic Server. Working from home taught me to be productive even when unsupervised.

Other Skills

I am also familiar with the following technologies:

React JS, VUE JS, Pandas, Tensorflow,
Weblogic S. Prolog, C# w/.NET,
TypeScript, Woocommerce, data algorithms

Other experiences

Co-Founder & Manager,

Beach Bar Blue Banana (Apr-Sept 2025)

As a team of 5 we rented the beach bar located in Possidi in the Student Camping of Aristotel's University.

Gained hands-on experience in:

Coordinating and communicating effectively with partners and employees, stakeholder reporting,
Managing resources (financial, inventory, equipment)
Handling crises while Staying calm especially under high workloads and impatient clients
and of course... making cocktails

Website Development Hotel Panorama 2021

After understanding the client's needs, created a website to present their business

AISEC (Volunteering) 2019-2020

Customer Services & product Marketing
Contacting applicants representatives.

Project by Faculty of Engineering 2017

Project for educational and career orientation project

Visit my **Github** Repositories to see my personal and University Projects

My moto:
Never stop
Improving yourself

Hobbys

playing the Guitar,
Board Games,
Cycling

Languages:

Greek: Native

English: Proficient (C2)

German: Beginner (B1)

What I am looking for:

- Getting familiar with a variety of modern tools and technologies
- A supportive work environment.
- Working with inspired people.
- Ability to work remotely at times

I can provide documented proof about any of the above, upon request.
